PLEASE READ THE LABEL COMPLETELY BEFORE USE

This product MUST NOT be used for any purpose or in any manner contrary to the controls and conditions of this registration.

**GHS Classifications**

Serious eye damage Category 1

Skin sensitisation Category 1

DANGER

May cause an allergic skin reaction.

Harmful to aquatic life with long lasting effects.

PRECAUTIONS

Store in original container, tightly closed, away from foodstuffs. DO NOT store for prolonged periods in direct sunlight.

Avoid contact with eyes.

When mixing, loading and / or applying wear protective clothing, including coveralls, gloves and face shield or goggles.

If clothing becomes contaminated with product, remove clothing immediately.

DO NOT eat, drink or smoke while handling the product.

Remove protective clothing and wash hands and face thoroughly before eating, drinking or smoking and after work.

Wash protective clothing separately from other clothing, daily after use and before reuse.

Apply with well maintained and calibrated spray equipment.

Application and storage should be as described in the Management of Agrichemicals NZS8409.

DO NOT carry on a passenger service vehicle.

Container disposal: Ensure the container is empty. Triple rinse empty container and add rinsate to the spray tank. DO NOT dispose of undiluted chemicals on site. Recycle empty container through Agrecovery (0800 247 326, www.agrecovery.co.nz). Otherwise crush and bury in a suitable landfill. DO NOT reuse this container for any other purpose.

Product disposal: Dispose of this product only by using according to the label, or at an approved landfill or other approved facility.

For additional information refer to the EPA Notices: Hazardous Substances (Disposal) Notice.

FIRST AID

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention

IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. For advice, contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor. If medical advice is needed, have product container or label at hand.

SPILLAGE

Collect spillage. Wear suitable protective clothing including face shield, chemical resistant gloves and boots.

Prevent the product or spilled material from entering water bodies. Absorb liquid spills with inert material such as earth or sand and place in waste containers. Wash area with water and absorb with further inert material.

Dispose of safely.

GENERAL INFORMATION

RYDER® Turf Pigment is a highly concentrated and stable green pigment designed for use on managed turf to improve its appearance and to help protect against UV radiation and excessive light intensities.

RYDER® Turf Pigment delivers a lasting and natural looking green colour for an enhanced, more uniform, appearance.

RYDER® Turf Pigment is safe to use on all turf species. For optimum turf quality RYDER® Turf Pigment should be used in conjunction with turf management practices that promote good turf health.

DIRECTIONS FOR USE

DO NOT use on or around food or feed crops

DO NOT apply to areas that may be grazed by food-producing animals

Situation	Rate	Critical Comments
Greens and turf maintained at under 12 mm	0.75 – 1.5 L/ha in a water volume of 250 – 500 L/ha	Use higher rates for a deeper green colour and higher heights of cut.
Turf maintained above 12 mm	1.0 – 2.0 L/ha in a water volume of 250 – 500 L/ha	For superior coverage apply 0.5 – 1.0 L/ha in each of two directions (90° opposite directions). Timing Apply at approximately 2 to 3 week intervals during the main growing season and at 4 to 6 week intervals when turf growth slows and mowing frequency drops. RYDER® Turf Pigment can be applied throughout the year as required. Apply after mowing.

MIXING AND APPLICATION

Shake well before use. Make sure the sprayer is clean and set to give an even application at the correct volume.

Half fill the spray tank with clean water and commence agitation. Add the required quantity of RYDER® Turf Pigment to the spray tank. Complete filling to the required volume and continue to agitate throughout the spraying operation.

DO NOT leave the spray liquid in the sprayer for long periods (such as during meal breaks (>1 hour) or overnight). Make up only the amount of spray required for immediate use. Thoroughly wash all spray equipment with water immediately after use.

RESTRICTIONS

Prevent spray drift onto surrounding areas. Stone, paths and pavements will be stained if contacted.

Avoid product drift to open water bodies. Apply vegetative buffer zones to water bodies of 3 – 5 m. Product application must be done using drift preventing practices and equipment (ie ensure weather conditions are suitable during application and, spraying equipment is well maintained and correctly calibrated).

STORAGE

Store in a cool dry place avoiding prolonged periods in direct sunlight. See Safety Data Sheet for additional storage information. Stores containing quantities of 10,000 litres or more require signage and secondary containment.

SAFETY DATA SHEET

If additional hazard information is required refer to the Safety Data Sheet. For a copy visit our website at www.syngenta.co.nz.

DISCLAIMER

This product complies with the description in the Safety Data Sheet. Implied terms and warranties are excluded. Syngenta's liability for breach of the express or any non-excludable implied warranty is limited to product replacement or purchase price refund. The purchaser must determine suitability for intended purpose and take all proper precautions in the handling, storage and use of the product including those on the label and/or safety data sheet failing which Syngenta shall have no liability.
